25 RESOLVED, That the Rate Board takes the following actions and adopts the

1 following findings regarding the Special Reserve Fund:

2 1. The Rate Board finds, for purposes of Section 5 of the 1987 Agreement in
3 Facilitation of Waste Disposal between the City and Sanitary Fill Company (now Recology
4 San Francisco), that there is a continuing need for \$13.85 million in the Special Reserve
5 Fund, and the remaining monies in the Fund may be and are allocated for the benefit of
6 current and future ratepayers and commercial accounts of the City's refuse collection
7 companies.

8 2. The Rate Board finds that the Department of the Environment's proposed
9 additional distribution from the Fund (as detailed in its June 24, 2016 report) is consistent
10 with the intended uses of the Fund and benefits the ratepayers.

11 3. The Rate Board concurs with the Department of the Environment's proposed
12 distribution from the Fund, which is the transfer of an additional \$2.5 million from the Fund
13 into the new Reserve Fund (created pursuant to the Landfill Disposal Agreement between
14 the City and County of San Francisco and Recology San Francisco ("Landfill Disposal
15 Agreement"), dated July 22, 2015) to provide additional initial funding for the New Reserve
16 Fund;

17 4. The Rate Board orders that the remaining balance of \$13.85 million be retained
18 in the existing Special Reserve Fund until such time as the Rate Board determines that
19 there is no need for the Fund, at which time the remaining monies must be used to the
20 benefit of ratepayers.
